The Organizer
All competitors

Time: 20:00 hrs

IMPORTANT NOTICE – ROUTE MODIFICATION

It has been brought to our attention that the sanitary situation in Mongolia rapidly deteriorated within the last few days. The number of new cases is skyrocketing, hospitals and medical facilities are switching their full focus on COVID, overwhelmed and struggling to face this new wave. The Mongolian Minister of Health took last night the decision to close the country's borders; as a direct consequence, Silk Way Rally's Head Doctor informed the Organization and the COC on this change of situation, strongly advising not to enter Mongolia. Keeping every competitor and team member health in mind, decision was taken to shorten the rally and modify the next stages to come. More information to follow in a separate official communication.

Il a été porté à notre attention que la situation sanitaire en Mongolie s'est rapidement dégradée au cours de derniers jours. Le nombre de nouveaux cas journalier est en constante augmentation et les hôpitaux font face à une nouvelle vague qu'ils peinent à contenir avec des capacités d'accueil saturées.

En conséquence, le Ministre de la Santé Mongole a pris hier soir la décision de fermer les frontières du pays ; dans le même temps, le Médecin Chef du Silk Way Rally a informé l'Organisation et la Direction de Course de ce dramatique changement de situation, enjoignant le rallye de ne pas entrer en Mongolie afin d'assurer la sécurité de tous.

La Direction de Course, en liaison avec l'Organisation, a donc pris la décision de ne pas faire entrer la compétition en Mongolie avec une modification du parcours et des étapes à venir. Une communication officielle à venir détaillera le parcours des prochaines étapes.

Attached: Letter from the Head of the department in charge of the implementation, compliance and enforcement of the Covid-19 protocol for the Silk Way Rally 2021 **Denis PROTSENKO**

To: Chairman of the Board of Directors
of the Silk Way International Rally Project
Yanborisov B.A,

Dear Bulat Akhatovich,

Hereby I inform you that due to the red level of epidemiological danger announced in connection with rapid outbreak of the incidence of a new coronavirus infection as well as due to the fact of the detection of bubonic plague in a number of aimags in Western Mongolia along the rally route by the National Center for the Study of Zoonotic Infections, I consider it necessary to change the route of the competition as soon as possible.

Stages of the International Silk Way Rally 2021 in Mongolia carries enormous risks to the health of Participants and Organizers of the Event. Therefore, I kindly ask you to consider the possibility of holding the event only on the territory of the Russian Federation within the regions of the originally approved route.

Best regards,
Head of the department in charge of the
implementation, compliance and enforcement
of the Covid-19 protocol for the Silk Way Rally 2021
Protsenko D.N.
